Summary of Patterns

Elasticity topics (PED and YED) appear in every alternate paper, commonly between 6–10 marks. Demand and supply diagrams remain consistent low-to-mid mark questions across series. Equilibrium and revenue interpretation appear in 8–10 mark evaluative forms. PED and YED rotate roughly every three series with YED used less frequently.

Predictions for Jan 2026

- PED calculation and application to pricing decisions
- YED analysis in changing economic climates
- Combined demand and supply shifts with equilibrium impact
- Extended 10-mark essay on elasticity and revenue links
- Possible 20-mark crossover on elasticity vs non-price factors
